

BUSINESS SHURU KARNE SE PEHLE

11 Zaroori Baatein — Point-by-Point Analysis

Aapke handwritten strategy notes ka detailed breakdown — har point ka analysis aur VASTRA / World General Store se juda real example.

1

Business / Company Ka Plan Banana — Aur Halaat Badalne Par Plan Change Karna

ANALYSIS

Sabse pehla step hai clarity — business kya banega, kis tarah chalega, iska ek rough roadmap pehle se taiyar hona chahiye. Lekin ek rigid plan kabhi kaam nahi karta; market, demand ya resources badalne par plan ko flexible rakhna padta hai.

EXAMPLE

Example: VASTRA shuru karte waqt plan tha sirf offline boutique chalana, lekin jab pata chala ki log online Rajasthani textile products dhoondte hain, to plan change karke website + WhatsApp checkout add kiya gaya.

2

Challenges Ko Face Karna

ANALYSIS

Har business mein rukawatein aayengi — funding kam padna, staff chhod jaana, competition badhna. Inse darna nahi balki ek-ek karke solve karna hi asli entrepreneurship hai.

EXAMPLE

Example: World General Store mein agar achanak ek bada supplier order cancel kar de, to turant backup local supplier se stock arrange karna ek challenge-handling skill hai.

3

Market Ko Analysis Karna

ANALYSIS

Bina market samjhe product launch karna risky hai. Competitors kya bech rahe hain, unki pricing kya hai, customer ki real demand kya hai — yeh research pehle se honi chahiye.

EXAMPLE

Example: VASTRA launch se pehle dekhna ki Jaipur/Dausa area mein kaun se heritage-textile brands already chal rahe hain, aur unke price range se kaise differentiate karna hai.

4**Taxes Par Dhyan Dena****ANALYSIS**

GST, income tax aur compliance ignore karna baad mein bada nuksaan deta hai — penalty, legal notice ya account freeze tak ho sakta hai. Shuru se hi proper record rakhna zaroori hai.

EXAMPLE

Example: World General Store mein agar turnover ek threshold cross karta hai to GST registration mandatory ho jaata hai — isse pehle hi billing system set karna better hai.

5**Funds Aur Loans Kahan Se Aayenge — Proper Proposal Taiyar Karna****ANALYSIS**

Capital ka source clear hona chahiye — apni savings, family support, ya bank/MUDRA loan. Loan lene ke liye ek proper written proposal (business plan + numbers) taiyar karna zaroori hota hai, taaki bank ya investor trust kare.

EXAMPLE

Example: VASTRA ke inventory expansion ke liye agar MUDRA loan apply karna hai, to ek 1-page proposal banao jisme investment amount, expected return aur repayment plan likha ho.

6**Good Team Banana****ANALYSIS**

Akela founder sab kuch nahi sambhal sakta. Reliable, responsible logon ki team honi chahiye jo product, delivery aur customer service sambhale.

EXAMPLE

Example: World General Store mein ek dependable staff member ho jo stock aur billing dono handle kare, taaki Piyush sirf strategy aur growth par focus kar sake.

7**Customer Ko Samajhna — Kaisa Product Banana Hai****ANALYSIS**

Product wahi successful hota hai jo customer ki real need solve kare, sirf founder ki pasand nahi. Customer se baat karke unki demand samajhna zaroori hai.

EXAMPLE

Example: VASTRA mein agar customers bolte hain ki unhe affordable cotton kurte bhi chahiye (sirf premium silk nahi), to ek budget-friendly line add karna customer-driven product decision hai.

8**Bade Businessmen Se Relationship Banana, Unse Help Lena****ANALYSIS**

Experienced log apni galtiyan se seekha hua gyaan share kar sakte hain jo kisi book mein nahi milta. Networking se mentorship, supplier connections aur opportunities milti hain.

EXAMPLE

Example: Local Dausa/Jaipur ke established kirana ya textile business owners se mil kar unse pricing strategy ya supplier contacts ke baare mein guidance lena.

9**Balance Sheet, Accounting Aur Mathematics Ka Gyaan****ANALYSIS**

Business numbers ka game hai. Profit, loss, margin, cash flow samajhe bina sahi decision lena mushkil hai. Basic accounting aur calculation skills must-have hain.

EXAMPLE

Example: Ek VASTRA product Rs.800 mein bana aur Rs.1000 mein becha — upar se packaging, shipping aur ad cost minus karne ke baad hi asli net profit pata chalta hai, sirf selling price dekh kar nahi.

10**Sole Proprietorship Ya Partnership — Sahi Structure Decide Karna****ANALYSIS**

Business ka legal structure decide karna zaroori hai — akela chalana hai (Sole Proprietorship) ya kisi partner ke saath (Partnership). Dono ke apne tax, liability aur control implications hain.

EXAMPLE

Example: Agar VASTRA mein aage koi design partner ya investor jud raha hai, to clear partnership agreement (profit-share, responsibility) likhwana zaroori hoga, warna baad mein dispute ho sakta hai.

11**Plan Fail Hone Par Reason Analyze Karna (Plan B)****ANALYSIS**

Har plan kaamyaab nahi hota. Jab koi strategy fail ho, turant doosri try karne ki bajay pehle yeh analyze karo ki fail kyun hua — taaki wahi galti dobara na ho.

EXAMPLE

Example: Agar World General Store mein ek naya product slow-moving nikla, to dekho — kya pricing zyada thi, ya display sahi nahi thi, ya demand hi nahi thi — usi analysis se Plan B banao.
