Financial Planning Guide | Category 3 of 4

LIC • Term Insurance • Health Insurance

"Insurance investment nahi hai — yeh aapke parivaar ki suraksha hai."

Risk cover karna seekhein, sahi tarike se.

Insurance Kya Hota Hai?

Insurance ka matlab hai **risk transfer karna** — aap ek company ko thoda paisa (premium) dete ho, aur badle mein woh company promise karti hai ki agar koi bura event ho (jaise death, illness, accident), toh woh aapko ya aapke parivaar ko **bada financial support** degi. Insurance **paisa kamaane** ka tarika nahi hai — yeh **paisa surakshit rakhne** ka tarika hai. Is category mein hum dekhenge **LIC, Term Insurance** aur **Health Insurance**.

■ Golden Rule

Investment aur Insurance ko kabhi **mix mat karo**. Insurance sirf protection ke liye hai, wealth banane ke liye nahi — wealth banane ke liye SIP/Mutual Funds use karo (Category 1 dekhein).

1

LIC (Life Insurance Corporation)

India ki sabse badi government life insurance company

LIC bharat sarkar ki sabse badi **life insurance company** hai jo alag-alag tarah ki policies offer karti hai. LIC ke pass sirf pure protection plans hi nahi, balki **"endowment"** aur **"money-back"** jaise plans bhi hain jisme insurance ke saath thodi saving/investment bhi mix hoti hai.

LIC ke Common Plan Types

- **Endowment Plans** — Fixed time ke baad maturity par lump-sum paisa milta hai, plus death cover bhi.
- **Money-Back Plans** — Policy ke beech-beech mein periodically paisa milta rehta hai.
- **Whole Life Plans** — Poori zindagi (100 saal tak) ke liye cover, saath mein saving bhi.
- **Pension/Retirement Plans** — Retirement ke baad regular income dene ke liye design kiye gaye.

■ Kyon Zaroori Hai?

LIC ek **trusted, government-backed** brand hai isliye bahut log isse bharosa karte hain, especially chhote shehron aur villages mein. Yeh un logo ke liye suitable hai jo insurance ke saath-saath thodi guaranteed saving bhi chahte hain — lekin returns Mutual Funds jitne high nahi hote.

■■ Dhyan Rakhein

LIC ke endowment/money-back plans mein **returns bahut low** hote hain (typically 4-6%), kyunki premium ka bada hissa insurance cover mein jaata hai. Agar goal sirf **wealth banana** hai, toh Term Insurance + alag se Mutual Fund SIP **zyada better combination** hota hai isse.

2

Term Insurance

Pure protection — sabse kam premium mein sabse zyada cover

Term Insurance ek **pure life insurance** plan hai — isme koi saving/investment nahi hoti, sirf **risk cover** hota hai. Agar policyholder ki policy ke dauran death ho jaaye, toh nominee (parivaar) ko ek **bada lump-sum amount (Sum Assured)** milta hai. Agar policyholder पूरी term tak **zinda rehta hai**, toh koi maturity paisa wapas nahi milta — isliye yeh sabse **saste premium** mein sabse **zyada coverage** deta hai.

Term Insurance Kyon Best Hai?

- Same premium mein LIC endowment ke comparison mein **10-20x zyada** cover milta hai.
- Financial planners hamesha recommend karte hain **alag se Term Insurance + alag se Investment** — na ki dono mix wala plan.
- Ideal Cover Rule: Aapki **annual income ka 10-15 guna** Term Insurance cover hona chahiye.
- Jaldi lene se premium bhi kam lagta hai — jitni jaldi lo, utna saste rate mein lock ho jaata hai.

■ Kyon Zaroori Hai?

Term Insurance is liye zaroori hai kyunki agar family ka **earning member** na rahe, toh parivaar ko financial struggle na ho — bachon ki padhai, ghar ka kharcha, loans sab is paisa se manage ho sakte hain. Yeh sabse **cost-effective way** hai apne parivaar ko financially protect karne ka.

■ Example

Ek 25-saal ka healthy insaan **■1 crore** ka Term Insurance cover sirf **■500-700/month** ke premium mein le sakta hai — jabki utna hi cover LIC endowment plan mein 10x zyada premium mein milega.

3

Health Insurance

Medical bills se aapki saving ko bachane wala shield

Health Insurance ek policy hai jo **hospital aur medical kharche** ko cover karti hai — agar aap ya aapke family member بیمار padh jaayein ya accident ho jaaye, toh treatment ka kharcha (poora ya partial) insurance company deti hai, na ki aapki jeb se jaata hai.

Health Insurance ke Types

- **Individual Health Plan** — Sirf ek person ke liye cover.
- **Family Floater Plan** — Poore family (spouse, bachche, parents) ke liye ek hi combined cover — usually zyada cost-effective.
- **Critical Illness Plan** — Cancer, heart attack jaisi serious bimariyon ke liye lump-sum amount deta hai.
- **Top-up/Super Top-up Plan** — Existing cover ke upar extra coverage add karne ke liye, kam premium mein.

■ Kyon Zaroori Hai?

Aaj-kal medical treatment bahut mehenga hai — ek chhota sa hospital stay bhi ■50,000-2,00,000+ ka ho sakta hai. Bina Health Insurance ke, log apni **saving ya investment beech mein todhne** par majboor ho jaate hain. Health Insurance is liye aapke Emergency Fund aur baaki savings ko **protect** karta hai.

■■ Dhyan Rakhein

Sirf company ka Group Health Insurance (jo job ke saath milta hai) par bharosa mat karo — job chhootne par cover bhi chala jaata hai. Hamesha ek **personal/family health policy** alag se lena chahiye, jo job se independent ho.

Quick Comparison

Option	Purpose	Best For
LIC (Endowment)	Insurance + Low saving	Guaranteed low-return + cover combo seekers
Term Insurance	Pure life risk cover	High cover, low premium — family protection
Health Insurance	Medical expense cover	Protecting savings from hospital bills
